Cross-border transfer of personal information (applicants living in mainland China)
SinoUK ITDC is a company registered in Changzhou, Jiangsu Province, China. To run your application, your information is provided to the following recipients outside mainland China:

2. Microsoft (Microsoft 365) — SinoUK ITDC's office mailbox, office@sinoukitdc.com, which receives notice of your submission and our correspondence with you.
3. University of Sunderland, United Kingdom — receives the details needed to start your University application, entered by SinoUK staff in the University's Agent Hub only with your authorisation.

Purposes: to store and manage your submission and candidate record, to contact you, and to start and support your University of Sunderland AO-QTS application.
Information provided: your name and any previous names, date of birth, gender, nationality and country of residence; email, mobile and WeChat ID; teaching route, subject and school; degree details; intended intake, SeRS package choice and preferred language; anything else you add; and your consent records. If you are later invited to the candidate portal, the application details and documents you add there are stored in the same way.

Your rights: you can ask SinoUK ITDC (office@sinoukitdc.com) to see, correct or delete your information, or withdraw this consent at any time; withdrawal does not affect anything done before. Information already held by the University of Sunderland must be requested from the University. The Privacy Notice gives each recipient's contact details and more information.
This consent is separate from the others. Without it, SinoUK ITDC cannot process your application through this system, because storage and the University are outside mainland China; please contact us if you have questions.
